KUPTM, Kuala Lumpur, 11th May 2017 (Thursday) – The School of Computing and Technological Science of KUPTM has organized a Mini Conference. The conference which took place at KUPTM was joined by 16 students from CU203 program.

On one hand, the mini conference gives students the opportunity to present their projects to the users and to receive feedback. On the other hand, it also helps students to improve their self-confidence.

Also, it allows students to meet and discuss their findings as well as sharing their experience with the users through the medium of discussion.
